Cryogas Equipment Private Limited

https://www.cryogasequipment.com/

We are manufacturer and exporter of cryogenic vaporizers and gas filling stations such as ambient air vaporizers, vacuum insulated pipelines, turnkey gas bottling stations and others. These cater to the requirements of gas and oil industries.

About Us

Cryogas Equipment Group was founded in 2009 under the entrepreneurship of Visionary director **Mr. Nayan Pandya**, Who envisioned for a company providing world class complete solution in field of Cryogenic and gas industry in Global market. Cryogas equipment started with supplying Cryogenic tank in India from France when cryogenic industry in India was in its dawn stage. Equipped with technical know-how and an innovative approach to business management, he has encouraged and guided People to Be a part of a company that values its customer most. Now CRYOGAS & EQUIPMENT GROUP, is a conglomerate of different specialized manufacturing companies catering to cryogenic and gas industries with our world class wide range of products. From past 3 years, we are offering a wide range of cryogenic vaporizers and gas filling stations, cryogenic valves, vacuum insulated line cryogenic storage and transportation tanks. We offer ambient low pressure vaporizers, ambient high pressure vaporizers, fan forced vaporizers, mobile vaporizers for purging applications, overhead type cylinder filling, inter connecting cryogenic piping, Vacuum insulated pipe in bayonet joints and field joints spools. Apart from this, we also undertake complete turnkey projects as per the client's specific requirements. In addition, we manufacture our range of standard Vaporizers according to ASME sec VIII Code and also offer them in other international codes like BS, ADM & CE marketing as per the...
